OLIVE TAN	98601EJR
TOMATO RED	98600FB
WARM SILVER	98601EJT

Quart Notes:

- Application of Urethane Activator 8oz PN 99825-02 RECOMMENDED
- REQUIRES separate purchase of Urethane Activator 8oz PN 99825-02
- Application of Denim Clear 98628CLR required
- DO NOT USE CLEAR COAT FOR THIS COLOR
- Application of Satin Clear 98628DYH required
- May require several clear coat application to achieve desired effect

It is recommended the base coat be catalyzed and dried for at least 24 hours before applying the clear coat, otherwise uneven color distribution may result

Unless otherwise specified, all colors REQUIRE the following 4-step process:

- PRIME COAT - Even if parts have been primed from H-D it is still necessary to apply Primer 98628G (quart) or 98606A (aerosol) prior to applying base/top coats. This is required to maintain accurate matching of the final color.
- BASE COAT (if required)
- TOP COAT
- CLEAR COAT 98628EK (quart) or 98606EK (aerosol)

SEE COMMONLY USED AIR-DRY PAINT SECTION FOR MORE APPLICATIONS

Custom Vehicle Operations (CVO)
